EDUCATION BACKGROUND

Jenderal Soedirman University – Purwokerto, Indonesia

Aug 2022 – Jun 2026

Bachelor's degree in Computer Science. GPA 3.87 out of 4.00 (Cum Laude)

- **Final Thesis:** Implementation of a Hybrid Weighting System Based on the Integration of ROC, Random Forest, and TOPSIS in a Decision Support System for Selecting The Best Interns at PT Wesclie Neotech Indonesia

EXPERIENCES

PT Telkom Indonesia Tbk – Purwokerto, Indonesia

Dec 2025 – Feb 2026

Full-Stack Developer Intern

- Led the development of a Telkom product promotional website to support commercial and marketing initiatives.
- Maintained the company news portal with 20+ content uploads, ensuring up-to-date information dissemination.
- Verified and cross-referenced 1500+ customer product data entries for database accuracy and consistency.
- Executed network infrastructure audits and PMR assessments across Purwokerto, Banjarnegara, Cilacap, and Purbalingga branches.

PT Wesclie Neotech Indonesia – Yogyakarta, Indonesia

Aug 2025 – Dec 2025

System Analyst Intern

- Analyzed and documented system requirements for 5 concurrent projects across various business domains.
- Produced over 30 UML artifacts including Use Case, Activity, Sequence, Class Diagrams, and ERDs for multiple software development projects.
- Created 4 Product Requirement Documents (PRD) and 5 Software Requirement Specifications (SRS) to guide development teams.
- Produced user manuals and technical documentation to support project implementation and end-user adoption.

PDAM Banyumas – Purwokerto, Indonesia

Jul 2024 – Aug 2024

Full-Stack Developer Intern

- Built a customer registration portal with Laravel and Midtrans, covering 306 villages across 27 sub-districts.
- Created comprehensive system documentation including use case, sequence, activity, and class diagrams.
- Presented project progress and technical updates to field supervisors throughout the development lifecycle.

Informatics Laboratory – Purbalingga, Indonesia

Embedded Systems Programming Laboratory Coordinator

Mar 2026 – Jun 2026

- Instructed and mentored 14 students in a dedicated shift, delivering comprehensive hands-on guidance in embedded systems programming.
- Demonstrated the end-to-end practical assembly and programming of IoT systems across 5 distinct lab modules.
- Evaluated student competency through 5+ assignments, quizzes, and an IoT final project.

Operating Systems Laboratory Assistant Staff

Mar 2024 – Jun 2024

- Instructed 40 students on Windows and WSL Linux environments across 2 shifts totaling 12+ sessions.
- Resolved 30+ technical issues and delivered comprehensive modules on system processes, memory management, and file systems.
- Developed 5+ assignments and quizzes, managing the end-to-end grading and evaluation process.

Database Laboratory Assistant Staff

Sept 2023 – Dec 2023

- Instructed 60 students in XAMPP and Command Prompt environments across 3 shifts for 12+ sessions.
- Resolved 25+ student issues covering database creation, SQL queries, and relationship concepts.
- Developed and evaluated 10+ assignments and quizzes, handled grade management.

ORGANIZATIONAL EXPERIENCES

BEM UNSOED (Student Executive Board) – Purwokerto, Indonesia

Feb 2024 – Dec 2024

Data Analysis Division Staff

- Conducted quantitative research and surveys to support executive ministries and deliver strategic insights for the university's student body.
- Spearheaded large-scale survey data processing for the Data Analysis Directorate, handling key initiatives such as 'Super Survey' (749 respondents) and 'Ekspektasi Mahasiswa Baru 2024' (1519 respondents).

HMIF UNSOED (Informatics Student Association) – Purbalingga, Indonesia

Mar 2024 – Dec 2024

Education Division Staff

- Enhanced student academic potential through structured programs, including the 'Mahasiswa Berprestasi' initiative.
- Led the 'Simpul Pintar' Question Bank program, organizing 74 study materials and 148 exam questions for academic assessments.

SELECTED PROJECT EXPERIENCES

Decision Support System for Selecting the Best Internship Participant – Final Thesis

- Engineered a Decision Support System integrating ROC, TOPSIS, and a Random Forest model (94.44% accuracy) to automate candidate evaluation and streamline the selection of top interns.

TelkomBizPlan – PT Telkom Indonesia Tbk

- A web-based platform designed for Telkom product price calculation and estimation, featuring an intelligent recommendation system utilizing the MOORA method.

TelkomDict – PT Telkom Indonesia Tbk

- A web-based dashboard platform designed to evaluate Telkom product feasibility using the KNN method, featuring interactive product monitoring tools built with Python and Flask.

Webklik – PT Wesclie Neotech Indonesia

- A promotional web platform for PT Wesclie featuring dynamic product catalogs, landing pages, and consultation services, supported by the creation of comprehensive PRD and SRS documentation.

Nautica – Freelance Project

[Link to Project](#)

- A specialized web management platform for AMN Cilacap dormitories designed to streamline administrative workflows, monitor housing periods, and track cadet entry and exit logs.

PDAM Portal Website – PDAM Banyumas

- Developed a comprehensive customer registration portal utilizing Laravel, Tailwind CSS, and MySQL, seamlessly integrating the Midtrans payment gateway to process secure transactions.

Credit Risk Classification – Course Project

[Link to Project](#)

- Optimized a backpropagation neural network for credit risk classification, implementing adaptive optimization and Optuna hyperparameter tuning to significantly improve model accuracy.

SKILLS & LANGUAGES

- **Programming Languages:** Python, Golang, PHP, and JavaScript.
- **Frameworks:** Laravel, CodeIgniter, FastAPI, React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap, and RESTful APIs .
- **Databases:** MySQL and PostgreSQL.
- **Tools & Platforms:** Git, GitHub, Postman, Asana, Visual Studio Code, Power BI, Google Colab, Kaggle, Figma, and Canva.
- **Soft Skills:** Problem Solving, Analytical Thinking, Communication, Collaborative Teamwork, Adaptability, Time Management, Critical Thinking, and Task Management.
- **Languages:** Indonesian (Native) and English (Intermediate).

ACHIEVEMENTS & CERTIFICATIONS

- Data Analysis with Python | IBM (Apr 2025)
- Big Data 101 | IBM (Apr 2025)
- Introduction to Data Analytics | RevoU Indonesia (Mar 2025)
- Google Analytics for Beginners | Google (Aug 2023)
- SMART Scholarship Awardee | Bank Rakyat Indonesia (BRI) (Aug 2022 – Jun 2023)
- Gold Medalist | Olympic Festival Competition (Mar 2022)
- Silver Medalist | National Grand Science Olympiad (Nov 2021)
